

OPERABLE PARTITIONS PROJECT OPERABLE

PARTITIONS FOR RESTAURANTS

STOCKHOLM INN

Rockford, IL

PROJECT DESCRIPTION

The Stockholm Inn, a cultural favorite offering a Scandinavian, home-like atmosphere and homemade recipes, is located in Rockford, IL. The Stockholm Inn has meeting rooms that can accommodate groups up to 200 but they also needed space for smaller groups.

THE CHALLENGE

Maintain the Scandinavian theme, provide acoustical separation and create rooms that can be adjusted to fit the size of various sized groups.

THE SOLUTION

Hufcor operable partitions provide the restaurant with the capability of transforming their space to accommodate large or small meetings and banquets.

Paired partitions were installed, which provide the acoustical separation needed and allows the Inn to easily adjust the size of their banquet and meeting rooms as needed. To maintain the Scandinavian theme, the partitions were furnished with unfinished faces and the Scandinavian-themed custom graphics were applied on-site. On-site application allowed the graphics to match so precisely at the seams that it is difficult to tell the wall is movable. A different graphic was applied to each side of the partitions.

An intersecting partition features a wainscot, chair rail, and a second custom vinyl. This partition also has inset windows to create a visual line of sight for the customers.

General Contractor & Design: Sjostrom & Sons Inc., Rockford, IL.
Installation: Hufcor Chicago, Addison, IL
