**PRODUCT FEATURES**

» 11L track can support panels up to 1,400 lbs [635 kg] allowing for taller and heavier omni panels

» 11L track is more cost effective than heavier-duty 11 track for Omni panels up to 1,400 lbs [635 kg] and paired panels up to 900 lbs [408 kg]. Typical panel heights from 16’-26’ or [4.8 m-7.9 m].

» 11L track has 4 divert options - diversion is accomplished via carrier pin heights and corresponding track fences.

» 21 different standard track configurations available (other configurations are possible – contact your Customer Support Team representative)

» Aluminum trim insures a clean, unmarked ceiling

**DESIGN FEATURES**

» 6-inch [152.4 mm] tight radius curves

» Heavier duty carriers and hanger rods

» Trim-less track option offered for track runs in pockets

» Cross-over switch available

» Easily replaceable fences

**PRODUCT APPLICATIONS**

Large Venues • Panel sizes typically in the 16’-26’ range [4.8 m-7.9 m], up to 1,400 lbs [635 kg].

» Hotels

» Convention centers

» Ballrooms

» Banquet Halls

» Meeting centers

Hufcor’s new 11L curve & divert track system is a more cost effective solution than standard 11 heavy-duty track for Omni panels up to 1,400 lbs [635 kg] and paired panels up to 900 lbs [408 kg]. The 11L system offers excellent load bearing capacity and a wide range of divert and stacking options while maintaining a tight 6” [152.4 mm] curve radius.

11L track is ideal for supporting op walls in large venues such as hotel ballrooms, convention halls and banquet centers for panels ranging 16’-26’ [4.8 m-7.9 m] in height where curve and divert is desired.

**“Longhorn” Stacks**
Available ONLY Via Customer Support Team

---

**Vertical Section**

11L Omni track as shown in head detail is standard for panels weighing up to 1400 lbs. (635 kg).

- Extend gypsum tight to existing roof deck.
- Apply acoustical insulation and caulk at joints, penetrations and deck volutes to insure complete seal.
